## For more than a century Brown's has added value to concrete.

Brown's Concrete understands the importance of an outdoor living space. It is a sanctuary that is uniquely your own, establishing a positive first impression and adds value to your property.

As a family owned and operated business, we rely on the strength of each other, just as our concrete relies on the strength of granite to provide a superior product. From our concrete construction block, to our Signature Collection, we always strive to provide only the best quality product to our customers.

At Brown's, we are dedicated to developing new ideas, products and innovative solutions for your hardscape projects. Our team is always looking to the future of

residential, commercial and institutional construction to find the next trend so that we may provide you with a unique, attractive and innovative solution.

As the trend towards green construction and environmentally friendly practices grows, so have our efforts to meet those trends. Our AquaPave by Brown's permeable paver system is a complete system that provides a proven solution for controlling rainfall and surface water run-off. With many systems in place for over a decade, the AquaPave system has proven to be a winner.

From all of us at Brown's Concrete, we look forward to another great season.

## BROWN'S LIFETIME WARRANTY

Brown's Concrete Products Limited provides a Lifetime Warranty to the original purchaser on the structural integrity of its products used in residential applications. If the material installed on the owner's property, using our recommended guidelines, proves to be defective the product will be replaced without cost. Colour matching and the occurrence of efflorescence cannot be guaranteed. The Warranty does not cover damage resulting from subgrade settlement or movement, contact with chemicals or paint, discolouration due to airborne contamination, staining, oxidation or improper sealing. Please refer to I.C.P.I. recommendations for de-icing products that will minimize potential degradation of concrete. This warranty is not transferable and proof of purchase is required.

Note: Colour swatches are for reference only and may not represent the actual product colour. We recommend that you see your local dealer to view actual sample pieces prior to final colour selection.
