

Retaining Walls - Grande™ Wedge

Grande™ Wedge can either be used with the Grande™ system to incorporate inside or outside curves, or can be used as its own stand alone system. As a stand alone system, Wedge can be built as high as 1.5 metres (5 ft) without any tiebacks (when installed at a setback).

Using the units that are rocked faced on both sides (2/3rds of the units in a bundle are double sided while the balance is single sided), you can create free standing walls vertical walls.

DIMENSIONS

Grande Wedge 100 Solid (Coping)
 Size: 14.96" x 3.94" x 12.3"
 (380 mm x 100 mm x 312.5 mm)
