Stones per Bundle	35
Ln.Ft. per Bundle	68.8
Pieces per Ln. Ft.	0.51
Weight per Bundle	1890 lb / 859kg

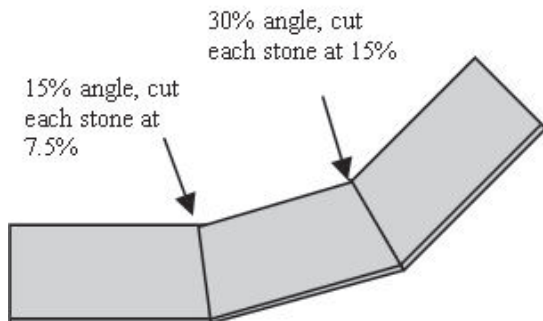

INSTALLATION INSTRUCTIONS

Place units tight against one another for straight walls.

For 90 degree corners, it is recommended that both units 1 and 2 be mitred at 45 degrees so that the split front face is continuous, and the tongue and groove is hidden.

For gradual curves, units can be cut as required. Again, it is recommended that both units be mitred at 1/2 the total angle so that the units sit flush together.
